

#WFI21

7-8 December 2021

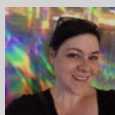

Radisson Bloomsbury Hotel, London

Post Show Report

After 8-years of running the Solar Finance & Investment Series in Europe, the USA and Asia, Solar Media Ltd. launched Wind Finance & Investment, a summit packed full of investors, lenders, developers, utilities and government speakers.

Despite the spectre of Omicron, we gathered over 200 registrants and more than 130 on-site attendees to hear from leaders in the European wind industry, network and win business.

This report gathers summarises the event as we head into 2022, looking towards the USA version of the summit and our second edition in London in Q4 2022.

Jo Wilkinson | Head of Event Content

CURRENT±

Global energy networks are changing. Cleaner, decentralised power is becoming the norm as legacy systems are deemed too dirty and too inflexible for modern demands. But to accommodate this transition, the networks that carry our power must evolve too. Current± is the leading source of news, insight and opinion as the energy transition accelerates.
